Make-up Course

Make-up course

Do you want to work in the professional make-up industry?

Our 10 weeks make-up course provides you with the skills you need to master in order to work with all kinds of beauty make-up. At our school on Kongens Nytorv in the heart of Copenhagen our teachers, who are some of the most highly qualified people in the industry, will teach you all the techniques and principles of the trade. Our teachers are all educated and work as a professional make-up artists which means that they have hands-on experience, and make it a point to stay on top of the latest trends.

The course is ideal for beginners as well as beauticians, hairdressers, photographers and others who wish to broaden their skill set. As of August 2014, we are able to offer our students the opportunity to work with make-up products from MAC Cosmetics. MAC Cosmetics' products are among the very best, and they are used by professional make-up artists around the world.

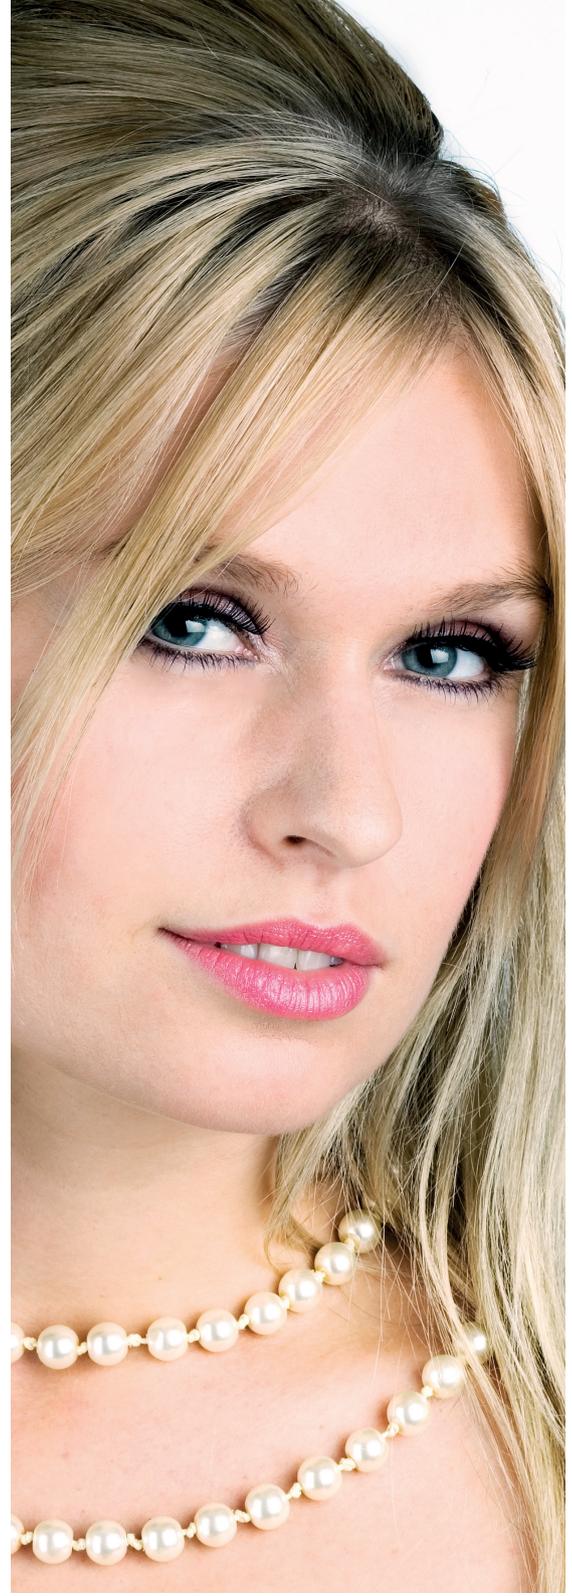

The course fee includes a professional make-up box and products from MAC Cosmetics and Inglot Cosmetics worth 5.000 kr.

At the end of the course you will be tested in one of the make-up looks you have learned to master, and you will receive a certificate.

Please contact us for a personal meeting at the make-up school for signing up to this course.

Best regards

Linda Christensen

The course covers colour theory, morphology and all the different make-up looks described below:

Morphology

You will learn about morphology, the "study of shape". The knowledge of face shapes and bone structure is a valuable tool and you will learn the art of highlighting and contouring

Colour Theory

Learn how to combine colours, how to use contrasting colors and not least, how to master the use of cool and warm colours.

Fashion Make-up

Fashion changes constantly, what is in style right now? You will learn how to create make-up looks inspired by the current fashion magazines.

Fashion Show Make-up

You will learn how to apply a high impact make-up for distance viewing using very bold and bright colours.

Day Look

You will learn how to create a day look using soft, muted shades and how to achieve a perfect radiant complexion.

Brial Make-up

Learn how to apply a durable make-up in romantic, soft colours that complements the wedding dress and the hairstyle

Evening Look

You will learn how to apply and blend bright, bold colours perfectly and work with contouring and highlighting techniques.

Gala Make-up

Gala is synonymous with elegance, precision and glitter. You will learn how to apply a stunning make-up to complement a glamorous dress.

Make-up for older woman

You will learn how to apply make-up on mature skin with lines, and how to use colours to make the complexion healthy and fresher looking.

Make-up for wearer of glasses

You will learn the basic make-up rules for wearers of glasses, long and short sighted.
